Reduce pain by restricting the mobility of the trunk; reduce the risk of medical problems escalating the patient's present condition, facilitate healing following an injury or surgical procedure to the spine or related soft tissues; To support weak spinal muscles and/or a deformed spine. If the patient's pain persists or worsens and/or there is an acute trauma or injury related to this pain, the patient agrees and understands to go to the Emergency Room or follow-up with their Primary Care Physician for further testing and imaging that may be immediately necessary

**Ms WARREN** reports chronic **LEFT KNEE**, **RIGHT KNEE** pain for **4 YEARS**. Patient states pain is **SHARP** with a pain scale of 10 and pain worsens with **DOING DAILY ACTIVITIES**. Pain is experienced **CONSTANTLY**. Previous treatments with heat, ice, medication and rest have been unsuccessful to control pain levels.

Diagnosis includes: M17.11-Unilateral primary osteoarthritis right knee, M17.12- Unilateral primary osteoarthritis left knee. Based on my conversation with Ms WARREN and evaluation of his/her condition, I am ordering the following: L1852 KNEE BRACE - KNEE ORTHOSIS (KO), DOUBLE UPRIGHT, THIGH AND CALF, WITH ADJUSTABLE FLEXION AND EXTENSION JOINT (UNICENTRIC OR POLYCENTRIC), MEDIAL-LATERAL AND ROTATION CONTROL, WITH OR WITHOUT VARUS/VALGUS ADJUSTMENT, PREFABRICATED, OFF-THE-SHELF WHICH INCLUDES L2397 SUSPENSION SLEEVE.

Patient is ambulatory and has weakness of the **LEFT KNEE**, **RIGHT KNEE** requiring stabilization for improvement of functionality. I am prescribing this **KNEE** orthosis for the following indication(s): to aid when the patient is **DOING DAILY ACTIVITIES**, to aid in stabilization of the **KNEE**. My treatment goal(s) for the use of the prescribed **KNEE** orthosis are: improvement in patient's function, improvement in patient's pain. The patient has been instructed to use the brace(s) daily, as needed.

Custom fitting of the orthosis is not required and the patient or an assisting caregiver can apply the prescribed orthotic device with minimal self-adjustment. **Ms WARREN** has been provided a phone number to call if there are any additional comments or questions regarding this examination, and I have recommended that **Ms WARREN** continue medical follow-up as part of an ongoing plan of care.
